Converting your Region Two U.K. DVD player to play all regions including Region One:

If your DVD player does not play U.S. Region One DVDs and you wish to convert it please go to www.dvdreviewer.co.uk and click on "Region Hacks" then "Multi-Region Hacks" on the left hand side of the Home Page. Then click on the link to see a full list of available hacks. You can then search for the particular make and model number of your DVD player, then follow the instructions, generally putting in a code number via your remote control. The whole process is simple and free and takes just a few minutes. We have, as yet, not heard of any problems with machines which have been converted.
